SURFACE HOG

HARD SURFACE CLEANING

ADVANTAGES

The Surface Hog is perfect for facilities such as Universities, Stadiums, Airports, Large Manufacturing, Shipping Ports, Theme Parks, Parking Garages, and more! The Surface Hog removes hydrocarbons and oils from gate areas, aircraft parking & work areas, gas stations, and more. By using only fresh potable water, the Surface Hog reduces environmental impact.

The Surface Hog is the only surface cleaning option that can be driven on roads at highway speed. Similar units can only travel upwards to 15 MPH (24.1 KMH). By integrating the Surface Hog into an Isuzu NRR chassis, there is no need to tow any of the equipment. With the Isuzu NRR chassis, the Surface Hog boasts a tight turning radius, making it perfect for surface cleaning in tight areas where larger equipment or towed equipment would have difficulty operating in.

Water is reclaimed and recycled through a 4-stage filtration system. down to 20 micron filtration. The Surface Hog's water reclamation and recycling system allows up to a 5-hour runtime, resulting in minimal downtime and increased productivity.

The Surface Hog uses a single blasting head for cleaning widths up to 36" (91.4 cm) and can remove built-up dirt and sediments from pervious (porous) pavement, restoring its drainage functionality.

SPECIFICATIONS

PRESSURE: 7,250 psi (500 bar)
BLASTING WIDTH: 36" (91.4 cm)
WATER TANK: 610 gallons (2,308 liters)
DEBRIS TANK: 132 gallons (500 liters)
RUNTIME: Up to 5 hours
FILTRATION: Down to 20 micron

THE HOG DIFFERENCE

- 98% of spare parts orders are shipped on the same day they are received, resulting in minimal downtime.
- Hog Tech University - Our New Learning Management System is the perfect place for your team members to receive certification and on-going training. Certified Operators maximize the productivity of your truck while maintaining the highest levels of safety at the lowest operating costs.
- Hog Technologies has a team of engineers and over 100 years of combined real-world experience to create the world's best solutions in every product we manufacture.
- 24/7/365 customer support is available with Certified Technicians within 10 minutes in multiple languages.
